EDUCATION

IIIT - HYDERABAD

M.S IN COMPUTER SCIENCE AT
C-STAR LAB
2018 - present | Hyderabad, India
Research Area: Parallel Computing and Graph Theory

IIIT - CHITTOOR

B.TECH(HONS IN COMPUTER
SCIENCE)
2013 - 2017 | Sri City, Chittoor
Research Dean's List (Semester 8)
Cum. GPA: 8.02

NARAYANA JR COLLEGE

SENIOR SECONDARY
2011 - 2013 | 91.2/100 | IPE

SKILLS

Programming
C • C++ • Python • JAVA • Matlab •
Socket Programming • R •
HTML5 • CSS3 • LaTeX

Frame Works
QGIS • Web2Py • Django

COURSEWORK

Data Structures & Algorithms
Advance Algorithms & Graph Theory
Artificial Intelligence & Machine Learning
Operating Systems
Computer Architecture
Principle of Programming
Language(Awarded Hons Certificate)

EXPERIENCE

GOOGLE SUMMER OF CODE | STUDENT DEVELOPER

May 2018 – Aug 2017

- The goal is to add triconnected decomposition to graph library of SageMath.
- Addition of Ear Decomposition and estimation of Closeness Centrality.
- Extending graph library by adding SPQR-tree. These modules will be useful in for several graph problems such as Hamiltonian Cycle, travelling salesman problem etc.

INDIAN SCHOOL OF BUSINESS | RESEARCH INTERN

Nov-2017 to Jan-2018 | Hyderabad

- Finding the effect on small stores if a popular store is shut down in a mall.

IIC TECHNOLOGIES & GOVERNMENT OF DELHI | QGIS DEVELOPER

Aug-2017 to Nov-2017 | Hyderabad

- Built a QGIS plugin which helps to understand the weather information, predicts it's trend and displays the interpolation.
- This plugin dropped down the cost from 25 Lakhs to NIL.

IIIT - CHITTOOR | TEACHING ASSISTANT

Aug-2014 to Dec-2016 | Sri City, Chittoor

- Worked as T.A for Algorithms, Math-I, Data Structures, Math-III, C Programming for UG students in IIIT-Chittoor for 5 Semesters.

PROJECTS

CROWD STEERING (MIT MEDIA LABS) | PYTHON DEVELOPER

July 2015- Sept 2015 | Nashik, India

- Worked on a real time framework built upon python and Amazon EC2 to do crowd analytics and predict flow of crowd using Heat-map.
- This project was completely funded and supported by MIT Labs.

EFFICIENT EAR DECOMPOSITION ALGORITHM

Jan. 2016 - Sep. 2016 | Sri City, Chittoor

- Breaking the time complexity of an existing algorithm of Ear Decomposition(an algorithm to find the Bi-connectivity of a graph.)
- Concluded with 2X Speed Up. It was published in DAM-2017 Journal, Germany.

APPLICATION FOR STOCK MARKET

Dec. 2016 - Jan. 2017 | Finsol Tech, Hyderabad

- Developed an application using socket programming which communicates with Shanghai Stock Market.
- Though this application market data will be viewed and orders can be placed and canceled with the delay of 5 nanoseconds.

ACHIEVEMENTS & AWARDS

- HackerEarth Campus Ambassador and selected in Internshala Student Partner 6.0.
- Certificate for High Performance Parallel Computing course which was held in IIT Madras.
